RE:match

FOR BUSINESS SUPPORT PARTNERS

A free lease deadline tool for your members

For FSB regions, Chambers of Commerce, Growth Hubs and Business Improvement Districts. For most small businesses, the lease is one of their biggest fixed costs. The key dates are buried in the lease, and missing one is expensive and hard to undo. Please share the calculator with your members and levy payers.

Free and open

No sign-up, no download. Members' dates stay on their own device.

Practical, not theory

A dated, personal plan in seconds, ready to add to their calendar.

Written by a surveyor

Created by Joanna Skinner MRICS, Chartered Surveyor. For leases in England and Wales.

READY TO PASTE: NEWSLETTER OR MEMBER BULLETIN

Is your lease ending in the next 18 months?

Break clauses and renewal notices have strict deadlines, and missing one can leave you tied into your premises or negotiating from a weak position. RE:match's free Commercial Lease End Timeline Calculator turns your lease end date into a dated plan: when to decide whether to stay or move, your 1954 Act notice windows, break clause deadlines and when to expect the landlord's dilapidations schedule. It's free, there's no sign-up, and you can add every date to your calendar.

The calculator gives general guidance for leases in England and Wales, not legal advice. Users should check their lease and take advice from a surveyor or solicitor before serving or relying on any notice.
